Seminar Purpose

The presentation will provide an update on industry financial performance using the Stewart Brown Financial Performance survey for the year ended 30 June 2011.

The presentation will include a wide ranging analysis of the data set. The June 2011 report includes over 540 residential aged care facilities and 270 packaged community care programs making it the largest ever data set for this survey.

Following will be a short presentation on Fringe Benefit Tax issues commonly encountered by Not-for-profit organisations and offers some sage advice and a few tips on how to avoid the pitfalls.

An informal luncheon will follow the seminar which will allow participants to ask further questions and to network with their colleagues.
